The Kericho Municipal Board Chairman thanked open air market stakeholders in the meeting to the continued support it has accorded the Kericho Municipal Board programs which has brought positive change and boosted the image of the town.

A participant raised a concern over nearly stalled modern market construction questioning why it has taken over four years since it started.

Traders in the market complained of the long time it has taken the market to be completed and stressed that they are losing patience with slow pace of work.

Traders also complained of uncollected and late collection of garbage waste which pose health risks to market users.

Municipal Manager assured the traders they are doing their part in ensuring the contractor complete the market though contract period has elapsed.

Municipal Engineer downplayed concerns raised that the contractor has not been paid stressing that he is paid per work done.

MIN 5/14/01/2025: AOB
